

Reporting

Put your data to work for you.

Reporting is an integral part of what you do. Yet, can be a challenge to keep up with the ever-changing data collection and compliance mandates.

For one, you have to be able to collect and get to the data you need to produce accurate and reliable reports. And when you're pulling data from multiple sources and systems, this becomes even more complex.

What if there was a simpler way to get the information you need, when you need it?

Meet CaseWorthy.

A centralized database allows you to securely capture and share information, analyze data, and run reports. With real-time reporting and analytics integrated into the baseline CaseWorthy application, you can quickly see the impact of your programs from your dashboard anytime you want.

Generate any number of operational, compliance, and program KPI reports.

Produce service reports with time records. Monitor program enrollment outcomes. Or create ad hoc and customized data reports to quickly zoom in on the information that's most important to achieving your goals.

Our unique technology allows you to easily set up your own search variables to produce the specific data you want to see. It's how we drive data to your dashboards and charts. Easily build and modify your data collection tables, forms and workflows to meet your ever-changing data collection requirements.

"I do a lot of data analysis, so when I want certain data, I need to be able to go in and get it. With CaseWorthy, I'm able to go in and build a query with very little programming experience. Now that we have a statewide platform, we're able to analyze data in a way we've never been able to do before."

— Jackie Janosko, Research Analyst, Connecticut Coalition to End Homelessness

Key Features

The CaseWorthy reporting feature offers several different ways for you to access your data:

CaseWorthy Analytics provides a number of tools to help you simplify the process of analyzing data, including filtering, sorting, grouping, and formatting options.

Export Data to Excel spreadsheets and PDFs, or create automated charts and graphs to instantly see the results of your outreach efforts.

Operational Reports allow you to drill down into the real-time details you need to know about your clients, programs, and services – who’s enrolled or exited, program outcomes, KPIs, retention rates, and more.

Compliance Reports are simpler to file since our dedicated team stays ahead of all the latest data capturing, eligibility rules and compliance reporting requirements for HMIS, CAP, Goodwill, HIV/AIDS, Catholic Charities and more.

CaseWorthy Business Intelligence is interactive in real-time, empowering you to set up advanced queries and create reports that reveal key insights into your business so you can prove outcomes and enhance services.

Microsoft Reporting Services (SSRS) enable you to connect directly to your SQL databases and use SSRS tools to format SQL reports in a number of ways.

“CaseWorthy connects your services to the outcomes, so you can tell what’s working – and what isn’t – and focus limited resources where they’re needed most.”

*— Peter Dore, Director of Data Management,
Brown School of Social Work,
Washington University in
St. Louis*

Benefits

Prove your social impact

Customizable dashboards allow you to instantly see all activity while detailed reporting shows you how various programs are performing.

Translate data into actionable information

Analyze your data and translate it into actionable information you can use to make informed decisions, prove outcomes, and enhance your services.

Ensure compliance

A panoramic 360° degree view of participant activity and program performance across the community improves

accountability and ensures all data, HMIS, and HUD compliance standards are being met.

Why CaseWorthy

Every business benefits from smart alliances. When you team up with CaseWorthy, you get a comprehensive solution to help you securely capture data AND meet all security and compliance requirements. Plus, we provide the expertise and experience you need to successfully manage your customized solution from planning to implementation.

“In addition to meeting compliance requirements for federal, state and local fund reporting, CaseWorthy™ also has easily customizable processes to track client outcomes.”

— Dottie Kastigar, Fragile Families Initiative Program Manager of Community Council of St. Charles County
