HELP PEOPLE GET ON THEIR FEET FASTER

Direct more time to service delivery by empowering participants to complete and update demographics, enroll in programs and classes, and complete assessments for career planning. Reach more people including those with disabilities or transportation and scheduling issues that are unable to visit your career center in-person.

GAIN A 360° VIEW.

Achieve greater transparency through robust tracking and reporting tools. Personalized dashboards allow you to see participant activity while clients can view their progress throughout the job search. Detailed reporting shows how various programs are performing – and ensures funding and compliance standards are consistently met.

“

Before CaseWorthy, people would walk in, fill out paper forms and our staffers would have to enter all the information manually. Now with CaseWorthy's portal we are able to do paperless self-registration. We have moved all of our records to a custom configuration and eliminated all the errors that go with paper registration.
