

THE NEW STANDARD IN CASE MANAGEMENT

We serve superstars in the Health and Human Services (HHS) sector who pour their heart and soul into the clients they serve. We like to take the same approach and see our role as more than just a software solution. The challenges HHS organizations face require tenacity, commitment, and above all, heart.

CaseWorthy exists to make the lives of heroes easier.

- 1 Raise the bar on how humanitarian organizations interact with their software partner
- 2 Show up every day ready to serve our clients with solutions to best serve their communities
- 3 Spearhead new and innovative ideas to help our clients accomplish workloads more efficiently
- 4 Take the time to get to know new customers and prioritize discovery of the unique needs for each organization

"I've designed and used primary data collection systems for 26 years and helped many non-profits 'work-around' the limitations in their off-the shelf software products. My main objective was to find a product that could be customized without going back to the vendor to pay and pay. You will not need to create 'work-arounds' with CaseWorthy."

CaseWorthy Values

Our values are more than just words. In 2020, CaseWorthy participated in a company-wide exercise to vote on what our employees valued most. Where other companies tell you what you want to hear, we show you exactly who we are.

Collaboration: We're stronger together, our team has a cooperative spirit and mutual respect. Good ideas come from anywhere, so the more voices the better.

Service: Our clients are at the heart of everything we do. We strive to provide a service that's anything but basic.

Compassion: It's compassion and kindness that wins over our clients at the end of the day, and that effort of understanding and accepting others is one of our biggest strengths.
