Outcomes

# Organization and Experience

---

## Grant Writing Tip #1 Humanize Data with Storytelling

### Organization and Experience

- Your organization, its programs, and service areas
- Key personnel and their role in the project
- Communication or marketing strategy to promote your project

# Project Overview

---

## Grant Writing Tip #2 – Strengthen Your Proposal with Data

- Short description of your project
- Award goals your project with achieve
- Need your project is addressing
- Key milestones and deliverables
- How your project fits your organization’s strategy and vision
- Potential risks and solutions to address these risks

# Project Impact

---

## Grant Writing Tip #3 – Center Your Proposal Around Your Community, Not Your Nonprofit

- People and areas that will benefit from your project
- Any partners for your project if applicable

# Budget

---

## Grant Writing Tip #4 – Clearly Explain How You'll Use The Funding

- Detailed description of project costs, including:
  - Milestone, phase, or deliverable
  - Projected start and end dates
  - Total costs, including staff, materials, and administrative costs
- Sustainability Plan for continuing the project after funding ends

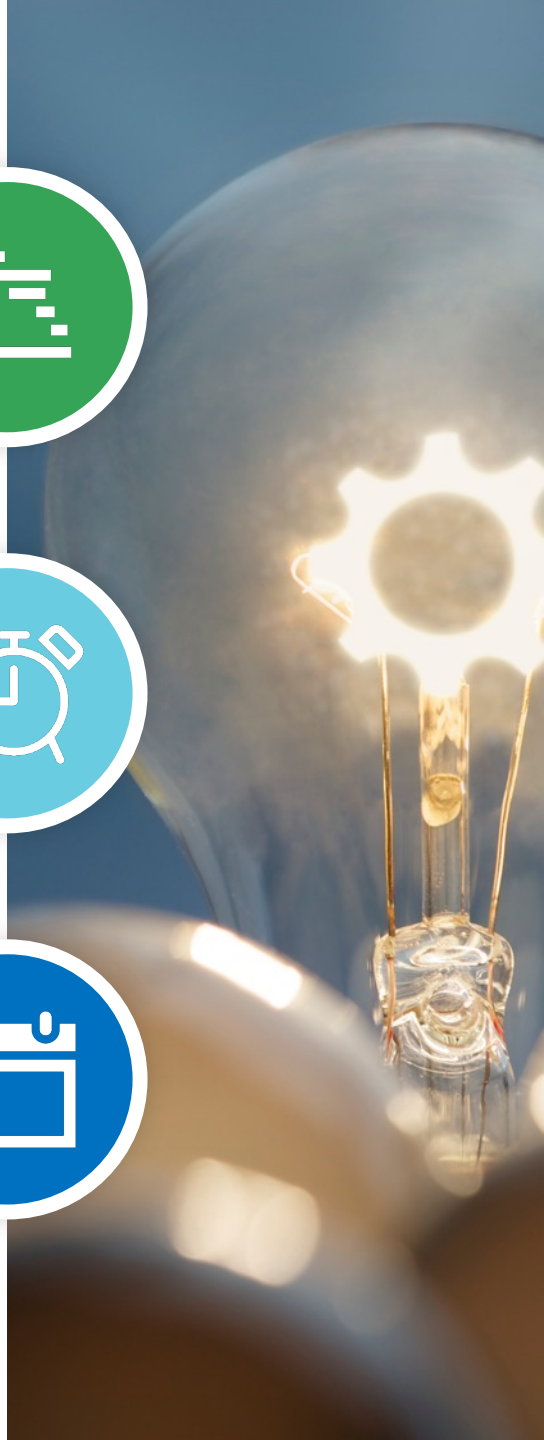

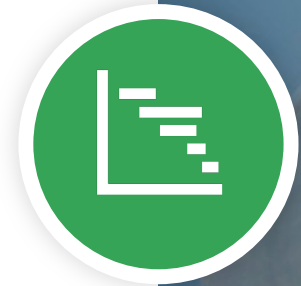

# Timeline

---

## Grant Writing Tip #5 – Be specific

- Any additional details on your project timeline
- Start and end dates for the project

# Reporting Outcomes

---

## Grant Writing Tip #6 – It's all about the data

- Target outcomes for your project
- Method for collection and measuring data for outcomes

# Remember the Grant Focus

---

## Grant Writing Tip #7 – Focus on how to improve the lives of the populations this grant supports

- The ARP Program Awards are intended to **enhance** the **health, safety,** and **member experience** for individuals who receive HCBS. This includes individuals who are elderly, with disabilities, living with a serious mental illness (SMI) designation, and children with behavioral health needs.

# Why Choose Us?

---

Purpose-built solutions that enable whole person care and collaboration across the health and human services ecosystem.

## Preferred Data Tracking Solution for Aging Service Providers

- Easy to use at all levels
- Streamlined access to data
- Powerful reporting and insights
- Best-in-class mobile meals app.

## Configurable Case Management Solution for Human Service Agencies

- Powerful data access & reporting
- Automate tasks and processes
- Integrate with existing programs
- Track all client and case data in one solution

## Centralized Care Coordination Suite & Agency Management Suite

- Centralize care management tasks & reporting
- Billing, documentation, and claim submission
- Align across government and provider agency objectives
